

# Custom Wedding Packages

Thank you for allowing PSAV® Presentation Services to be part of your memorable event. Create the perfect atmosphere to capture your guests' attention from the moment they arrive. The PSAV technology team looks forward to making your special day unforgettable with our exclusive wedding packages.

## ↗ Lighting Enhancement Packages

### *Add drama and mood*

Your special occasion can be made more dramatic with lighting. Décor lighting, in colors to compliment your tables, chairs and center pieces can be used to illuminate key focal points, such as the head table, center pieces, cake and the dance floor. Lighting creates the right mood for each part of your event. From illuminating your ceremony to perimeter uplighting to soft accent lighting for tables, your PSAV team can create your perfect setting.

## ↗ Sound Packages

*So everyone can hear you say, "I do."*

Use wireless microphones so your guests can clearly hear you recite your vows at the ceremony and toast honored guests at the reception. PSAV can also provide a CD player for light background music during your reception, allowing everyone to enjoy music while you wine, dine and mingle with friends and family — indoors or out.

## ↗ Display Packages

*Examples of standard Gobo images. Specialty gobos or photo images are also available on request.*

### *Entertaining options for your reception*

A hot trend for receptions is to display your special photo montage – family photos, engagement photos, bridal party shots or recent trips – using PSAV's LCD Photo Montage package. Add a custom touch with illuminated images (gobos), such as wedding bells, your initials or champagne glasses. If you plan to share a special video with your guests, consider a plasma flat panel display for a high quality image. Make the memories last beyond your wedding day with a video recording.
