

FIRST HOTEL IN HONG KONG TO INTRODUCE A BUILT-IN LED TV WALL

Grand Hyatt Hong Kong is proud to be the first hotel in Hong Kong to introduce a built-in LED TV Wall in the Grand Ballroom. The high definition full screen LED wall offers guests the best visual experience. As the LED TV Wall is multi-media oriented, it gives events organizers the flexibility to change the background, as well as to display multiple visuals at one time. It also offers a solution for visually altering the size of the room. Another big advantage is to reduce wastes by minimizing the production of structural materials and the cost for preparing the set up. It will contribute to the unique experience of any event. For events enquiries, please call +852 2584 7068 or e-mail hongkong.grand@hyatt.com

Hyatt. You're More Than Welcome.
