WE LOVE BEING GREEN

At Grand Hyatt Denver, we take being environmentally conscious very seriously. This is a partial list of some of our conservation efforts:

GREEN INITIATIVES AT GRAND HYATT DENVER

- Single stream recycling system for cardboard, paper, aluminum cans, newspapers, magazines and glass bottles
- Recycle bins strategically placed around public spaces of the hotel including meeting spaces, restaurants, and bars
- Recycle bins placed in all back of the house areas including banquet floors, offices, kitchens, loading dock areas, and purchasing
- Recycle bins placed in all guest rooms
- “Green Team” of hotel managers to ensure the hotel is current with new conservation initiatives
- Biodegradable food service items are used for carry-out food orders
- Newspaper racks in public areas instead of delivered to the guest rooms
- Compositing of all left over food products within staff cafeteria, banquets, and kitchen
- Energy Star-certified dishwasher to conserve water

THE FOLLOWING ARE WAYS WE CONSERVE ENERGY

- Back of house hallway areas have electronic ballasts and utilize fluorescent bulbs, light sensors in offices, restrooms, and all associate work areas
- Use of compact fluorescent light bulbs in all guest rooms
- LED lighting in ballrooms and 2nd and 3rd floor meeting spaces
- Programmable thermostats in all guest rooms
- Energy Star* equipment in all guest rooms, including computers in staff offices
- Energy sealed re-caulked building
- Automatic hand sinks in all public and associate restrooms
- Timers on landscape and building up lights
- Drip system on irrigated landscaping areas
- Energy management system used to program the HVAC systems
- SkySpark analytics software to reduce energy
- Shower heads with a 2.5gpm max flow rate and sink aerators with a 1.0gpm max flow rate
- The hotel heating and cooling systems designed in conjunction with Xcel Energy company’s recommendations for energy efficiency
- Reheated water system and reuse of laundry rinse water
- Bed linen changes upon request to conserve water and energy
- Encouraged use of electronic staff communication to decrease overall paper usage
- Printing on recycled paper for internal documents and two-sided printing when applicable
- Encouraged use of public transportation by subsidizing light rail and bus pass costs for hotel associates
- LED television sets in all guest rooms
- A laundry system that uses less water per wash and that conserves on detergent as well
- Green linen program that invites guests to forego housekeeping service for the day
- Recycled bath and shower amenities through CleantheWorld.org that repurposes them and sends them to countries in need
