TIME TO CAPTURE IMAGE INFORMATION	RETENTION PERIOD	STORAGE LOCATION
-----------------------------------	------------------	------------------

GO

GRAND

24 HOURS	Day captured + 30 days	Security Section (digital format)
----------	------------------------	-----------------------------------

Handling or processing methods: Data related to any unauthorized use of personal image information, requests for provision of the information to any third party, destruction, and review, etc. are recorded and maintained. When the retention period expires, the information shall be permanently deleted using an irrecoverable method. The information captured and stored in digital format is automatically deleted after 30 days. (Any output on paper or storage media is shredded or incinerated)

5. METHODS AND LOCATION FOR CHECKING PERSONAL IMAGE INFORMATION

- Checking methods: You may check your personal image information by visiting the hotel after informing the image information manager in advance.
- Checking location: Security Section

6. ACTIONS FOR REVIEW OF IMAGE INFORMATION UPON REQUEST

You may at any time request the image information equipment operator to allow your review, verification of existence, or deletion of your personal image information. Note, however, that it will be limited to personal image information that includes your image captured or which is clearly required for the urgent protection of life, body, and property.

Grand Hyatt Seoul will take the necessary actions without delay when you request review, verification of existence, or deletion of your personal image information.

7. MEASURES FOR THE SECURITY OF IMAGE INFORMATION

The image information handled by Grand Hyatt Seoul is securely maintained. In addition, the company grants to its employees differentiated authority to access the personal image information as part of its administrative measures to protect personal image information. To prevent forgery or tampering of the personal image information, the company records and maintains the date/time captured, purpose, viewer, and time of review of the personal image information.

8. MATTERS RELATED TO CHANGES IN THE PERSONAL INFORMATION PROCESSING POLICY

This Image Information Processing Equipment Operating & Management Policy is enacted on 1 June 2012. Any addition, deletion, or correction based on a change in statutes, policies, or security technologies shall be notified along with the reason and contents through the company's website at least seven days in advance.
