CASA WINES

We take pride in showcasing the finest wines South America has to offer, carefully curated from its most renowned wine-producing regions. Through extensive research & a passion for excellence, we bring you a selection that truly celebrates the rich heritage & exceptional craftsmanship of South American winemaking.

SALTA. ARGENTINA

The Salta wine region is located in the far north of Argentina, in the Calchaqui Valley. The region is known for its high altitude vineyards, some of which are over 9,840 feet above sea level. The climate & altitude create conditions that produce intense flavours, balanced acidity & phenolic ripeness in the grapes. The region's signature wines include Malbec, Torrontes & Cabernet Sauvignon.

MENDOZA. ARGENTINA

The Mendoza wine region is considered to be the highest regarded region in Argentina & accounts for two thirds of all wine production. It is located in the eastern foothills of the Andes mountains, overlooked by the imposing Mount Aconcagua. Mendoza vineyards are planted at some of the highest altitudes in the world with some reaching as high as 3,600 feet above sea level.

CENTRAL VALLEY. CHILE

Chile's Central Valley is the heart of the country's wine industry, producing the vast majority of its wines. This expansive region encompasses diverse microclimates & soils, allowing for a wide range of grape varieties to thrive. From the traditional Cabernet Sauvignon & Carmenère of Maipo to the up - & - coming potential of Maule, the Central Valley offers a complex tapestry of wine styles.

MAIPO VALLEY. CHILE

The Maipo Valley is the historic heart of Chilean winemaking, renowned for producing some of the country's most iconic Cabernet Sauvignon & Carmenere. The distinct growing areas offer diversity, from the high - altitude vineyards of Alto Maipo, to the coastal influence of Pacific Maipo, this region consistently delivers elegant & complex wines that showcase the best of Chile's viticultural potential.

MAULE VALLEY. CHILE

Historically known for bulk production, it's experiencing a renaissance with a focus on higher - quality wines, particularly Cabernet Sauvignon & Carmenère. This diverse region offers a range of microclimates & soils, promising exciting wine discoveries for those willing to explore beyond Chile's more famous wine valleys.

MALDONADO. URUGUAY

Maldonado is Uruguay's most renowned wine region, known for its high - quality tannat wines. This region, located on the country's southeastern coast, enjoys a warm climate & fertile soils, ideal for growing this distinctive grape variety. Tannat wines from Maldonado are often characterized by their deep colour, bold flavours, & firm tannins, making them a favourite among red wine enthusiasts.
