**HYATT REGENCY CALGARY TO TRANSFORM THOMSONS
INTO A NEWLY RE-IMAGINED SPACE FOR MEETINGS AND EVENTS
AND SANDSTONE INTO AN ALL-DAY DINING DESTINATION**

Hyatt Regency Calgary is delighted to announce exciting new directions for its casual dining restaurant and bar lounge. Come spring, Thomsons will be reborn as a unique, mixed-use space for weddings, corporate, socials and private events while Sandstone will be redefined as an all-day dining serving breakfast, lunch, dinner and cocktails.

The re-imagined Thomsons will be dedicated to hosting the meetings and events of corporate clients, patrons and guests. The bespoke banqueting experience will include personalized menus designed by Executive Chef Geoff Miller and his creative culinary team, showcasing seasonal ingredients that are locally sourced and prepared with an international flair. Every need will be taken care of by our seasoned banquets team, professional meeting and events planners and a dedicated wedding specialist with an elevated attention-to-detail approach and sincere service. Modern audio-visual technology will give the venue its chameleon-like characteristics and charm. Despite its transformation, Thomsons will retain its original sandstone walls and brick archways that showcase the history and tradition of Alberta in an elegant setting. Sandstone, on the other hand, will be offering all-day meals featuring exciting menus that continuously change based on local favorites and current food trends. Come late evening, it will have the ability to convert into a stylish, sexy bar serving an impressive selection of seasonal and signature concoctions, old fashioned cocktails and late-night snacks.

We are confident that the modernized Thomsons and Sandstone will be the ultimate destination for the local community to celebrate, socialize, discover and convene. Thomsons and Sandstone will begin their enhancement on March 29, 2019 and are scheduled to be publicly unveiled on May 15, 2019. During this period of redesign, a comfortable interim restaurant will be set up at the hotel's Lineham Lobby to accommodate all dining guests.

Over the years, Hyatt Regency Calgary has continued to improve its offerings, amenities and overall guest experience. We believe that these enhancements will continue that long history. We could not be more excited to host one of your meetings and events at the new Thomsons and look forward to your continued patronage when we present to you a bolder Sandstone.
