

*** *Signature Cocktails* ***

A CLIMB THROUGH FIVE CLIMATES

Mount Kilimanjaro is the tallest mountain on the African continent and the highest free-standing mountain in the world at 20,000 feet. The climb to the top of Mount Kilimanjaro is attempted by 30,000 people each year, though only around 50% climb to the summit. As they scale the mountain, they experience the incredible natural phenomena of five distinct climate zones from base to summit.

Fascinated by this journey and this natural series of ecosystems, we have created a series of cocktails that are each inspired by one of these ecological climate zones.

CULTIVATED CROP - 25,000

Smirnoff Vodka | Baileys | Fresh Espresso | Coconut Cream | Tanzanian Cinnamon

The lower climate zone of Kilimanjaro National Park is a bushland zone that has been given over to the cultivation of coffee, banana, avocado, and mango. This zone receives the most rainfall annually and along with the many rivers and rich volcanic soil, this creates the perfect ecosystem for farming

JUNGLE JUICE - 25,000

Rum | Pineapple | Lemongrass | Pressed Lemon

The base of the mountain is ringed by a beautiful rainforest, filled with large mossy trees, thick undergrowth, creepers and lively streams. The forest is also home to many types of flowers and animals, including several exotic and brightly coloured birds such as the malachite sunbird, African pygmy kingfisher, and African pitta. These elements inspire this drink which is itself a twist on the classic Jungle Bird cocktail

MISTED MORNING - 25,000

Johnnie Walker Red Label | Triple Sec | Fresh Ginger | Tanzanian Honey | Pressed Lemon | Smoky Whisky Mist

The Afro-alpine moorland zone (also known as the heather zone) is special because of the assortment of truly unusual vegetation growing there including beautiful grasses, giant heathers, red-hot poker, and yellow proteas.

HIGH & DRY - 25,000

Olmeca Tequila | Aperol | Watermelon Juice | Lemon Juice | Sugar Syrup

The alpine desert zone is very inhospitable. The sun blazes down throughout the day but temperatures quickly drop below freezing at night. Any explorer must be wary of dehydration here, so we have created a thirst-quenching drink with notes of herbal flavours resulting from the watermelon and Aperol working together.

UHURU PEAK - 25,000

Gordon's Gin | Sauvignon Blanc | Passionfruit | Spearmint | Pressed Lemon

The arctic zone at the summit of Mount Kilimanjaro is all snow, ice, and rock. The name "Uhuru Peak" translates as 'Freedom Peak' and is how summit is known in Swahili. The crisp acidity from the white wine and passionfruit, along with the icy menthol notes from the mint make this cocktail as cold and fresh as the mountain top itself.
