

Five standalone kitchens have been designed to offer very distinctive cuisines, while coexisting in perfect harmony to form a singular culinary district. Their only common thread is the dedication and commitment of our Chefs to remain true to the cuisine featured.

They have devised a menu containing only fresh and seasonal ingredients from a wide range of locally and internationally sourced products and have make use of authentic recipes and traditional cooking methods to take you on a multi-sensory gastronomic journey.

For a more complete dining experience, we suggest you sample a number of dishes from each kitchen, as they are prepared with the intention of being shared. Please allow our service team to guide you through the menu and assist you with your selections.

WESTERN
