

SUSTAINABILITY AT OUR HOTEL

Caring for the planet is a natural extension of Hyatt's purpose — to care for people so they can be their best. At [Hyatt Regency Bali](#) we are dedicated to sustainability and are committed to making a difference through our daily processes. To learn more about Hyatt's sustainability efforts, click [here](#).

OVERVIEW

- Experience the true Balinese culture through Hyatt Regency Bali's architecture.
- Located in the heart of Sanur, enjoy aesthetic beaches, restaurants, shopping, and green spaces within walking distance of our hotel.
- Our Sea Turtle Conservation program supports vulnerable sea turtles.
- The BeBot – A fully electric beach deep cleaner robot that does not emit any pollution.

Certifications & Awards:

- EarthCheck Silver Certified
- Gold Certification from The PLEDGE™ on Food Waste
- ISO 22000:2018 (Food Safety Management System) Certified
- Global Biorisk Advisory Council (GBAC) Star Accredited
- Clean, Health, Safety, and Environment (CHSE) Certified

CLIMATE CHANGE & WATER

- Accessible hydration stations in public areas to help reduce the use of plastic bottles and encourage water conservation.
- Glass bottled water is provided as default for in-room and event consumption.
- Energy-efficient lighting in guest rooms, hallways, and meeting spaces to reduce energy consumption.
- Greywater recycling to support water preservation.
- Using Hyatt EcoTrack to track sustainability metrics including greenhouse gas emissions, energy, water, waste, and recycling.
- Through our Conserve program, we change linens every three nights of the stay unless requested otherwise, and guests may choose to reuse towels by leaving them hanging.
- Trees are preserved on the property, ensuring the maintenance of their carbon sink viability.

WASTE & CIRCULARITY

- Commitment to minimizing single-use plastics across the property.
- Facilitating recycling and composting with clearly labeled waste bins in public areas.
- Clean clothes from laundry do not use any bags, delivered using rattan trays.
- Large format bathroom amenities are offered instead of single-use plastic packaging.
- Thorough waste management practices to ensure maximum recycling and minimal landfill waste.
- Diverting food waste by donating food daily to SOS (Scholars of Sustenance).
- Digital signage usage for guest information to minimize paper use.
- Offering reports through the Planner Portal, reducing the need to print.
- Utilize bamboo keycard and mobile entry through the World of Hyatt app
- Food production is recorded through FIT system to reduce food waste
- Donating linens and soap to local communities to be repurposed
- Utilizing eco-friendly in-room amenities made from cornstarch, bagasse, bamboo and paper

RESPONSIBLE SOURCING

- 80% of our products are sourced from local suppliers.
- Seafood is sustainably purchased from responsible sources.
- Plant-based & plant-forward menu items are offered in our restaurants and for events.
- Utilizing eco-friendly takeaway containers made from cornstarch, bagasse, bamboo and paper
- Eliminating single-use materials from room amenities with environmentally friendly alternatives such as bamboo, paper, and rattan.
- We use a Fair Trade practiced coffee brand – Tanamera Coffee Indonesia.
