TEA

Samovar has made amazing relationships with artisan tea farmers around the world. From China, to India and Japan, these tea farmers have committed themselves to preserving an ancient art, and helping the planet along the way. They source almost entirely organic products which mean more sustainable practices, and a better product.

EARL GRAY 7

the leaves are wild-harvested from ancient tea trees in the jungles of yunnan, china and then blended with organic bergamot.

RYOKUCHA GREEN 7

toasted brown rice is blended with steamed sencha green tea and stone-ground matcha.

COCONUT PINEAPPLE OOLONG 7

HIBISCUS BLISS 7
