Hyatt Regency Scottsdale Resort & Spa, in joint venture with Liberty Wildlife, has a "bird abatement" program. The premise of this program is to actively modify the behavior of some "pesky" birds by having a live hawk of falcon on the resort grounds tended by Joe Miller, the resort's Director of Wildlife.

Joe employs a quiet, organic, eco-friendly and very sustainable program. The objective is not to kill these birds, but to deter them from the resort grounds. This provides an experiential learning opportunity where guests are able to have an up-close encounter with these amazing creatures. This is one way that we support our commitment to the environment.
